Original wills and inventories

C & D testators

In the Guide to the Northamptonshire and Rutland Probate Records (1964) mention is made on page 5 of these bundles of original wills, some with inventories, which were never bound up into volumes, but have escaped destruction. These have now been listed and an index provided. The wills are mainly those of testators whose surnames begin with the letters C or D and are mostly earlier than 1626. There is one each of 1629, 1632, 1634, and 1635 and two (J Channell and W Davye) of 1666. The wills are endorsed with 17th century numbers which have been retained.
