LISTS/Fisher &amp; Co.

The MILTON, HASELBECH, Estate Papers of Edward Fisher & Son,  
Estate Agents, Market Harborough, Leics.

These papers form part of the collection of Edward Fisher and Son, Estate Agents, of Market Harborough, who were the Agents for the estate of Selina, Viscountess Milton, at Haselbech, Northants. Lady Milton's second husband, Mr. George Savile Foljambe, died in 1869 leaving his estates to his eldest son, Lady Milton's step son, but his second son, Mr. Cecil G. Savile Foljambe inherited the estates of his mother, Lady Milton, on her death in September 1883. He was subsequently created Baron Hawkesbury and Earl of Liverpool, in the last title reviving that of his maternal grandfather, Charles Cecil Cope Jenkinson, 3rd Earl of Liverpool.

These papers consist, in the main, of letters written to Edward K. Fisher, the Agent, by Lady Milton and others such as the Rector of Haselbech and the tenant farmers, and can be divided into five classifications - letters; financial papers; general estate papers; plans and drawings; inventories. Whereas there is a fairly complete series of letters from the buying of the estate in 1856 to Lady Milton's death in 1883, they thereafter cease, but the financial papers continue during some years, not always consecutive, during the management of Mr. Cecil Foljambe.
